WHS Training: Public ~ Onsite ~ Online

BSB51315 Diploma of Work Health and Safety

Overview

This qualification is designed for those who coordinate and maintain the work health and safety (WHS) program/system within an organisation. It provides the opportunity to grow practical knowledge and skill in the development, implementation and management of WHS programs/systems.

Who Should Attend

Safety practitioners and managers with WHS responsibilities.

Entry Requirements

Participants must hold a Qualification / Statement of Attainment with the five (5) core units from the BSB41415 Certificate IV in Work Health and Safety, being:

- BSBWHS402 Assist with compliance with WHS laws
- BSBWHS403 Contribute to implementing and maintaining WHS consultation and participation processes
- BSBWHS404 Contribute to WHS hazard identification, risk assessment and risk control
- BSBWHS405 Contribute to implementing and maintaining WHS management systems
- BSBWHS406 Assist with responding to incidents

Units of Competency

- BSBWHS502 Manage effective WHS consultation and participation processes
- BSBWHS503 Contribute to the systematic management of WHS risk
- BSBWHS504 Manage WHS hazards and risks
- BSBWHS505 Investigate WHS incidents
- BSBWHS506 Contribute to developing, implementing and maintaining WHS management systems
- BSBWHS507 Contribute to managing WHS information systems
- BSBWHS510 Contribute to the implementation of emergency procedures
- BSBHRM509 Manage rehabilitation or return to work programs
- BSBWHS410 Contribute to work related health and safety measures and initiatives

Delivery and Duration

Five (5) day face to face interactive workshop. Assessments are due within 12 months of day 1 of workshop.

Learning Outcomes

On completion of this qualification, participants will have the knowledge and skills to:

- Recognise, evaluate and manage health and safety hazards in the workplace.
- Administer various work health and safety functions, planning, and policy and process development in the workplace.
- Communicate effectively with personnel at all levels of the organisation.
- Develop actions, interventions and measures to prevent re-occurrence of incidents.
- Achieve change in WHS matters.
- Gather and analyse relevant WHS information and data.
- Contribute to the implementation, review and improvement of the WHS plan and WHS management system.

Award

Upon successful completion of the required assessments, participants will be awarded the BSB51315 Diploma of Work Health and Safety.
