

College of Medicine Nursing & Health Sciences

Dean’s Forum: Pacific Health Research Bites

The lunch hour forum: Pacific Health Research Bites was initiated by the Research Unit to bring researchers from the College together to share “bite-sized” gems of research information. We hope that Researchers will take this opportunity to present their ideas for future collaboration or showcase current research activities. Since research in the Pacific poses unique learning experiences, we also encourage presenters who wish to share these experiences as well and not limit themselves to just the presentation of completed research activities.

We envision that the forum will help you network with potential collaborators; receive useful feedback regarding ongoing work and brainstorm opportunities for further research development at the College and University. So, bring your lunches and join us from 1.00-1.45pm, CMNHS Campuses, Fiji National University.

Interested individuals and groups are encouraged to contact healthresearch@fnu.ac.fj with the following details:

Research Bite:	
Team Members:	
Contact Details	
Abstract	<p>Brief (250) word summary of the Presentation: Typical research Abstracts include: Introduction, Research methods utilized, Study Sample, and Impact of the study (Results, Analyses, and Limitations). This will help us publicize your session to the wider University network.</p> <p>*Please indicate whether you consent for the abstract to also be Publicized on the Pacific Health Voices webpage: <input type="checkbox"/> Agree <input type="checkbox"/> Do NOT Agree</p>
PDF of Presentation	<p>Please include if you consent for a PDF version of the presentation to be made available on Pacific Health Voices Webpage:</p> <p><input type="checkbox"/> Agree <input type="checkbox"/> Do NOT Agree</p>

A calendar of tentative dates is attached for your information. Presentations will be scheduled on a “First-Response, First-Confirmed” basis. For more information, Contact:
