## College of Medicine, Nursing and Health Sciences

The College of Medicine, Nursing and Health Sciences [CMNHS] is a merger of two of Fiji's Oldest Health and Medical Institutions; Fiji School of Medicine and Fiji School of Nursing.

The College has the vision to be the leading health workforce academic education and research institution in the Pacific Region. It strives for Excellence and Relevance in all that it does and focuses on graduating compassionate and competent health professionals who will improve the health of people in the Pacific Region.

The College delivers undergraduate programmes in medicine, dentistry, pharmacy, health, medical imaging, medical laboratory technology, public, nutrition, physiotherapy, nursing and midwifery. To extend the formal academic programme, short courses are offered in areas such as reproductive health, trauma management, advanced life support and disaster management, emergency health, phlebotomy and treatment of Tuberculosis.

The College continues to make substantial progress to provide high quality and relevant programme choices to our most important stakeholders – our students. Therefore, in ensuring our students are work ready and trained to meet the needs of our country, CMNHS initiated, introduced and signed on new agreements to ensure our students are exposed to new opportunities.

CMNHS also introduced lateral entry to one of our most popular programme – Bachelor of Medicine and Bachelor of Surgery (or as many of you would know as MBBS). The lateral entry programmes provides those with prior Health Sciences degree, an alternative entry into the MBBS programme.

There are plans to introduce a similar programme for our nurses and we hope it rolls out in 2018. The programme will allow nurses with Diploma qualification to upgrade their qualification by enrolling into the Bachelor programme through the lateral entry. Also in 2018, the College will be offering a new programme in Master of Oral Surgery. The new programme aims to train our meticulous health professionals to specialise in oral surgery to meet the needs of our country.

In the 2017 – 2018 national budget announcements; the government has allocated a total of \$1.8 million to upgrade and renovate the Dental Clinic in Pasifika Campus. The grant will ensure facilities are upgraded to meet our student's needs.
