

Greetings from the Sustainable Initiatives Committee

The University Sustainability Plan 2021-2026 has been launched on the 16th of November 2021 which is a one of the major accomplishments for the university. The plan is being developed upon the three pillars of sustainability which are, social cohesion, environmental protection, and economic performance.

The Plan captures the four distinctive categories.

1. Administration & Governance

Integrating sustainability in University's administration and governance, including policies, programs, and resources. Creating a significant transformation requires a strong focus on improving the University's diverse culture and values.

2. Stakeholder Engagement

Focusing on engaging sustainable practices into its campus and community engagements to ensure that no one is left behind. As a result, collaborating with all stakeholders will improve sustainability and bridge the gap between FNU and the community

3. Operations

Operational solutions for sustainability displaying institutional effort of conserving natural resources, enhancing operational efficiencies, and minimising carbon footprints.

4. Education & Research

Utilising the FNU campuses as a living lab. Embedding sustainability in the University's curriculum and research which will increase understanding the immediacy of environmental responsibility and driving knowledge on sustainability giving the students real-world skills they can use to improve the planet.

The SIC would like to acknowledge all those who have contributed towards the development of the plan and making it a successful event.

With this, the new [Sustainability website](#) was also launched as well where you can now access resources and updates in relation to sustainability. You can visit the website and view the plan under [Resources](#) category.

Along with this, we are pleased to announce the slogan competition winner and SIC would like to congratulate Ms. Anitra Chand who also receives \$50.00 prize money.

The Slogan for the Sustainability Plan is **“Green and Sustainable FNU”**

We thank everyone who participated in the competition. The shortlisted slogans went through a voting process by the Senior Leadership Team members and the slogan was determined.

The SIC is looking forward to everyone's continuous support and encourages to embed sustainable practices in everyday life for the betterment of our environment and future generations.

Vinaka

Chair - Sustainable Initiative Committee
Mr. Niranjwan Chettiar
