Despite efforts, however, the evidence shows that inequalities are increasing rather than decreasing in many countries. This may partly be due to faulty policy decisions. There is clearly need for a better evidence-based approach on health policies to achieve equity.</p> <p><b>Location-</b> Nabua [1 copy]</p>	CEST

<p><b>54</b></p>	<p>Leaving No One Behind: Humanitarian Effectiveness in the Age of the Sustainable Development Goals</p> 	<p><b>Authors:</b> United Nations</p> <p><b>Description:</b> This study explores elements critical to effective humanitarian assistance and protection. It details global trends that shape humanitarian needs, risks and response expectations. It situates the study in the context of concurrent global agendas and recent trends in the dialogue on humanitarian effectiveness. The findings are organized around 12 elements of effectiveness. It concludes with five overarching shifts in mindset and approach that will contribute to strengthening humanitarian effectiveness as well as advancing areas of shared interests with other major change areas such as sustainable development, peacebuilding, climate change and gender equality. The study puts forward a model that can be used to chart progress in advancing humanitarian effectiveness over time.</p> <p><b>Location-</b> Nabua [1 copy]</p> <p><b>OPAC Link:</b> <a href="#">Click Here</a></p>	<p><b>CEST</b></p>

In rich and poor countries, people are connecting through technology at an accelerating pace. The report imagines how a world of increasingly informed, connected and self-reliant communities will affect the delivery of humanitarian aid. Its conclusions suggest a fundamental shift in power from capitals and headquarters to the people aid agencies aim to assist. The included World</p>	<p><b>CEST</b></p>
