9	<p>Oral Radiology: Principles and Interpretation</p> 	<p><b>Author:</b> Stuart C. White, Michael J. Pharoah</p> <p><b>Description:</b> This book demonstrates the basic principles of oral and maxillofacial radiology along with their clinical application. First, you'll gain a solid foundation in radiation physics, radiation biology, and radiation safety and protection. Then you'll learn intraoral and extraoral imaging techniques, including specialised techniques such as MRI and CT. The second half of the book focuses on recognising the radiographic features of pathologic conditions and interpreting radiographs accurately.</p> <p><b>Location-</b> Pasifika [16 copies]</p> <p><b>OPAC Link:</b> <a href="#">Click Here</a></p>	CMNHS

<p><b>10</b></p>	<p>Nutritional Foundations and Clinical Applications: A Nursing Approach</p> 	<p><b>Author:</b> le Grodner, Sylvia Escott-Stump, Suzanne Dorner</p> <p><b>Description:</b> This book takes a wellness approach based on health promotion and primary prevention. It offers guidelines with a human, personal touch, using first-hand accounts to show how nutrition principles apply to patients in real-world practice. This edition includes new chapters on the effects of stress on nutrient metabolism and on nutrition for neurodegenerative disorders such as Alzheimer's and Parkinson's disease.</p> <p><b>Location-</b> TCL [32 copies]</p> <p><b>OPAC Link:</b> <a href="#">Click Here</a></p>	<p><b>CMNHS</b></p>
<p><b>11</b></p>	<p>Schmidek and Sweet: Operative Neurosurgical Techniques Volume 2</p> 	<p><b>Author:</b> Alfredo Quiñones-Hinojosa</p> <p><b>Description:</b> This extensive medical reference explores the indications, surgical techniques, complications, and outcomes associated with nearly every neurosurgical procedure. With full-color illustrations, 21 new chapters, contributions from internationally acclaimed experts, surgical videos, and online access, it is an essential resource for today's practitioners. Enhance your skills in both routine and specialized procedures for addressing brain, spinal, and peripheral nerve issues in adult patients.</p> <p><b>Location-</b> Pasifika [4 copies]</p> <p><b>OPAC Link:</b> <a href="#">Click Here</a></p>	<p><b>CMNHS</b></p>
<p><b>12</b></p>	<p>The Revenge of Geography: What the Map Tells Us About Coming Conflicts and the Battle Against Fate</p> 	<p><b>Author:</b> Robert D. Kaplan</p> <p><b>Description:</b> In *The Revenge of Geography*, Robert D. Kaplan explores key historical turning points through the lens of geography. He examines the world's conflict zones, considering their climates and topographies. For instance, he illustrates how the harsh Russian steppe shaped resilient, destructive individuals, and critiques how Nazi geopolitics misinterpreted global space as territory to expand a greater German homeland.</p> <p><b>Location-</b> Natabua [2 copies]</p> <p><b>OPAC Link:</b> <a href="#">Click Here</a></p>	<p><b>CHEL</b></p>

13	<p>Worldwide Destinations: The Geography of Travel and Tourism</p> 	<p><b>Author:</b> Brian G. Boniface, Chris Cooper</p> <p><b>Description:</b> Worldwide Destinations: The Geography of Travel and Tourism is a unique text that explores tourism demand, supply, Organisation, and resources for every country worldwide in a logically structured and accessible format.</p> <p><b>Location-</b> Natabua [5 copies]</p> <p><b>OPAC Link:</b> <a href="#">Click Here</a></p>	CHEL
