CERTIFICATE III IN INFORMATION TECHNOLOGY

(FOCUS: NETWORK, SUPPORT AND CYBER SECURITY)

This course is delivered by National Training & Productivity Centre of Fiji National University on behalf of TAFE New South Wales (RTO 90003). TAFE NSW (RTO 90003) is the organisation responsible for issuing the Australian qualification.

Course description:

Information technology is a dynamic, fast-changing industry. A career in IT opens the door to a promising and innovative future. This course provides participants with the skills and knowledge needed to work effectively in an ICT environment, including building websites and learning basic programming. This course has and is focused on Network Support and Cyber Security units.

This course also provides:

- Industry-Relevant Tools and Software: Access during training to build practical and technical skills.
- Learner Support Services, and much more.

Course outcomes include:

- Knowledge of office software, business and IT technologies.
- Transferable skills you can use across any industry.
- Access to strong network of peers and teachers to support you.
- Strong pathways to continue your studies and enhance your career opportunities.

Learning subjects include:

The training equips participants with essential IT skills and knowledge across a range of areas, including cyber security, network operations, system administration, problem-solving, client support and introductory programming.
