Core Graduate Attributes

Fiji National Graduate Attributes	CGS Graduate Attributes	
Fiji National University graduate studies students are expected to demonstrate a high level of professionalism in their research, adhering to ethical standards and accountability. They possess advanced research and analytical skills, enabling them to critically evaluate complex issues and apply innovative solutions. Networking and collaboration are key strengths, as they actively engage with academic and professional communities, building strong partnerships across disciplines. Our graduate students also exhibit adaptability and resilience, navigating challenges with flexibility and perseverance, while contributing to both academic growth and real-world impact.	**Ethics**	Demonstrate integrity and ethics in designing and implementing research projects.
	High level of professionalism	Demonstrate high professionalism with integrity in problem solving and in relating to peers.
	Networking and Collaboration	Demonstrate the ability to build and sustain professional relationships and engage with diverse academic and industry communities.
	Research and Analytical Skills	Demonstrate the ability to critically evaluate information, synthesize findings, and apply them to solve complex problems.
	Adaptability and Resilience	Demonstrate the ability to navigate the challenges of advanced study and research effectively.
	Effective Communication	Demonstrate the ability to communicate difficult concepts with clarity.
	Attention to Detail	Demonstrate a sense of commitment to critical appraisal of documents and written/published works.
