Young Wainikiti Ravuwai of Naitasiri Secondary School was 'over the moon' as she walked through the College of Medicine, Nursing and Health Sciences (CMNHS) tent during the Fiji National University (FNU) Open Day.

Ravuwai said it was always her dream to learn more about the study opportunities offered at the medical College.

"It is interesting coming to this booth (CMNHS) and this has enhanced my understanding of programmes offered by this College," Ravuwai said.

According to her, Open Day was an important event because they "get information about careers which will be their bread and butter in the future".

Their careers teacher, Joseva Jale said Open Day event gave the students a first-hand experience of the life at University.

Jale said they brought 72 students from Year 12 and Year 13. "We decided to include the Year 12 students as well because we wanted them to get a boost in their school work. After this session—they will know what is required of them to be able to make it to FNU," he highlighted.

Meanwhile, Mishangi Reddy a Year 13 student at Basden College was at the Open Day for the first time.

"I am excited and CMNHS has done an amazing job with their various displays," Reddy said.

"This is one of the most looked forward events in our school calendar and I have broadened my knowledge on the many programmes that are available from this College."

Basden College Math Teacher, Shabnam Reddy said they brought students from Year 11, Year 12 and year 13.

"We wanted to generate interest among our younger students so that they know of the opportunities that are available to them," she added.

The two-day FNU Open Day 2019 is expected to attract more than 10,000 students from across Fiji.
The FNU is hosting its Open Day at Valelevu Grounds, Nasinu, Labasa Civic Centre and FNU Natabua Campus in Lautoka.

Students eagerly listen in to the presentations.
